Good session, Ali? Voice note or text: what you worked on, what clicked, anything sore?

Delivered

Logged: clinch entries off the jab felt sharper, kept getting countered after the jab. **Left shin sore** after checks. I've let Coach Sam know.

Coach Sam • voice note

Your jab's fine. You're staying on the centre line after it. Step off left after every jab this week, and skip heavy checks till the shin settles.
